Scheduled to be released July 28, 2009

A surprising twist and gutsy call from the Texas outlaw-Nashville outcast, choosing to wrap his trademark twang around what are considered pop standards. An audiophile favorite on vinyl and commercial success upon its release in 1978. Radio stations that program easy listening took to it immediately and continue to play cuts from it today. Utilizing many of Nelson's usual country bandmates to augment the unique arrangements by producer Booker T. Jones. This wonderful recording is available for the first time on Classic Records *Clarity Vinyl SVP-II 200g as a Single Sided 45rpm Deluxe Box Set Release.
