Scheduled to be released December 22, 2009

The pairing is ideal - the former front man of Genesis, as produced by the leading light of King Crimson. On this, Peter Gabriel's second album, the songs "On the Air" and "D.I.Y." are stunning slices of modern rock circa 1978, bubbling with synths, insistent rhythms, and polished processed guitars, all enclosed in a streamlined production that nevertheless sounds as large as a stadium. Other tunes include "A Wonderful Day in a One-Way World", "White Shadow," "Animal Magic," the tense yet catchy "Perspective," and the reflective closer "Home Sweet Home". Transferred for the first time from the original 1/4" analog two-track master tapes by Bernie Grundman using his all tube cutting system. Now available on Classic Records 200g Clarity SV-P II as a 45rpm Four Single-sided Discs Box Set.
