

Peter Gabriel Three, 45rpm, 200g Clarity Vinyl, Four Discs Set
Real World

PG 3-45-200G-CLARITY

Scheduled to be released December 28, 2009

Generally regarded as Peter Gabriel's finest record, his third eponymous album finds him crafting an album that's artier, stronger, more song oriented than before. Consider its ominous opener, the controlled menace of "Intruder." He's never found such a scary sound, yet it's a sexy scare, one that is undeniably alluring, and he keeps this going throughout the record. For an album so popular, it's remarkably bleak, chilly, and dark. Transferred, for the first time ever, from the original 30 ips 1/4" master on Bernie Grundman's all tube cutting system, this Classic Pressing, packaged in a deluxe gatefold die cut jacket with printed inner sleeves, is the definitive LP version of this giant album. This is a rock record for anyone with good taste. Now for the first time this recording is being pressed on Classic Records 200g Clarity SV-P II as a 45rpm, Four Single-sided Discs Box Set.
