

THE TALKING HEADS/REMAIN IN LIGHT (180g LP)

Cut from the Original Analog Masters! Way to go Rhino!

Formed in the mid '70s by art school chums David Byrne, Chris Franz, and Tina Weymouth and ex-Modern Lover - Jerry Harrison, Talking Heads rose out of the CBGB punk crucible and proved themselves one of the most artistically adventurous and influential bands of all time. Their visionary, polyrhythmic sound fused elements including rock, funk, and punk with diverse world beats, avant-garde minimalism, and pure pop genius. From their 1977 debut through their Brian Eno and self-produced classics and on to their swan song (1988's Steve Lillywhite-produced NAKED), the Heads constantly broke creative boundaries while also scoring smart radio hits including "Burning Down The House," "Wild Wild Life," and from Remain In Light, "Once In A Lifetime."

Pressed on 180-Gram HQ vinyl at RTI.

Featuring original packaging, including lyric sheet insert.
